10. **Right of Acceptance:** The undersigned reserves the right to accept the offer either in full or in part, or to reject it entirely, without assigning any reason.
11. **Bid Opening:** Only sealed quotations received by postal / Courier are valid and considered for evaluation. Open quotations submitted in hand or sent by email will be treated non-responsive and will be totally rejected. Hence the bidders are requested to send their valuable sealed quotations by postal / other means well in advance before the date of opening. Sealed quotations shall reach our office on or before **3:00 PM** of **01.04.2026** and the received quotations will be opened on the same day at **3.30 PM** in the presence of bidders if any available. Quotations received after 3:00 PM will be rejected.
12. **Bidder Confirmation:** Technically qualified bids will only be considered for financial evaluation. Price bids will be assessed in accordance with the Least Cost Based Selection System. All the bids will be evaluated on the basis of the eligibility criteria through verification of all the essential documents submitted along with the terms & conditions

complied by bidder. Though the L1 bidder will be the preferred bidder, simply quoting of lowest rate does not confer any right for selection of the bidder at the rate quoted. KCMMF reserves the right to confirm and finalize the bidder. Quoting of same rates (L1 only) by more than one bidder could be construed as an exceptional circumstance. In such cases, all the bidders who have quoted the same lowest rates shall be called for and one more chance will be given for on spot quoting if bidders are present or negotiated quote may be collected via mail with a closing time for rate finalization. If the negotiated quotes are still the same, KCMMF reserves the right to award the purchase order to that party at its discretion subject to the reputation/performance of the party based on their business volume, providing extended guarantee period, prompt service, customer satisfaction etc. or to cancel the tender for proceeding with re-tender.

13. **Experience:-** Only contractors with proven experience in executing reliable water pipeline systems in industrial or commercial establishments shall be considered. Routine household plumbing experience will not be sufficient.

14. **Details of WORK**

Details of WORK with specifications and quantity are as mentioned in the **Annexure** enclosed herewith and also available at our official website <https://www.milma.com/tender/tendernotices>

ANNEXURE

(List of Items with description, specifications, Quantity)

Technical Requirements & Specification

The scope of work includes **repair, augmentation, and extension** of the existing fire fighting water distribution system to ensure full coverage and reliability across the plant premises.

The contractor shall carry out:

- Providing a **dedicated fire water supply line** from the existing overhead tank (largest capacity) to ensure uninterrupted 24-hour water availability.
- Repair and rectification of the **existing fire water pipeline network**, including leak arresting, replacement of damaged sections, and restoration of functional efficiency.
- The fire fighting pipeline network shall be extended to cover the uncovered areas, including:
 - New DORB Godown
 - Finished Goods Store
 - Old Raw Material Godown
 - All other required operational areas

Pipeline System

- Pipes shall be:
 - **UPVC / CPVC** pipes conforming to relevant IS standards applicable
 - Minimum Class: Medium / Heavy class as per requirement (able to withstand minimum 20 bar)
- Pipe diameter shall be designed based on hydraulic requirements (minimum 50 mm recommended).
- All pipelines shall be:
 - Properly aligned and supported
 - Protected against corrosion with primer and RED paint.
 - Numerical numbering and necessary Marking shall be provided on all valves.

Valves

Suitable valves shall be provided and installed at all required locations. All valves shall be easily accessible and properly tagged.

Hose Connection Points

Providing fire hydrant points / hose connection outlets at required intervals. Each point shall included with valve and a hose coupling arrangement. Spacing shall ensure complete coverage of all areas.

Flexible Hoses

Supplying and installing of Flexible hoses having length of minimum 30 m is included in the contractor's scope.

Water Supply System

Dedicated pipeline connection from the **existing overhead tank**. The System shall ensure Continuous availability of water and adequate pressure at all hydrant points

Supports and Installation

Proper pipe supports, clamps, and anchor fasteners shall be provided. All pipelines shall be Firmly fixed and Properly sloped at required areas for drainage wherever required.

Testing and Commissioning

The installed pipelines shall be done a functional testing of all Hydrant points, Valves & Hose operations. Any leakage or defects shall be rectified before commissioning.

Contractor Responsibilities

The contractor shall conduct site inspection before execution, Prepare layout drawings (if required), Supply all materials, tools, and equipment, Ensure safety during execution and Complete work within stipulated time.

Completion and Handover

System shall be handed over in fully operational condition. As-built drawings (if applicable) shall be submitted. Trial run and demonstration to plant authorities is mandatory.

Warranty

Minimum **12 months warranty** for workmanship and materials from date of commissioning.

Special Conditions

Work shall be carried out without disturbing plant operations. All damaged civil structures during work shall be restored and Contractor shall comply with all safety regulations.
